

## Mini Crawlers

Used Mini Crawler Orange - We have designed several Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the experienced operator who needs re-certification or certification, and for inexperienced operator who is looking for work in the business. Positions for crane operators are in demand due to their high pay. Operators of cranes are among the highest paid of whatever heavy machine operator. Our Crane Operator training offers instruction for a variety of mobile cranes. Course subject comprises Wire Rope, Crane Set-up, Load Dynamics, Lift Planning, Signaling, Load Charts and Rigging. The program is best for crane operators, riggers and their supervisors. The materials incorporated in the course would consist of a manual and many informative handouts. The safety manual that is illustrated features one hundred to two hundred fifty pages, depending on the course, of vital and helpful material. Course materials consist of load exercises and load charts for the crane with which the trainee is working. Hands-On Safety Training will take up more than half of the course curriculum. The practical training part is the most effective method to improving and developing personal skill levels. Only skilled journeyman crane instructors are selected to teach the courses. Our instructors possess numerous years of business experience. Optional testing mechanisms are offered for all of our courses. Students would usually write tests both prior to and following training. A skills test is normally administered for programs which consist of H.O.S.T. Trainees will be graded and tested. Certification Training Programs: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Certification & Testing. As the new industry requirements emerge, the industry standards of practice likewise change. The business sees constant updates to regulations and legislation, in addition to equipment and technology enhancements. Industry data collection and analysis detect trends which are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members ahead of workplace and personal safety news.
